8th December 2008

Dear Karolis,

Thank you very much for purchasing a new Quaife ATB differential and for returning your lifetime warranty registration form within the specified time limit.

With this letter, R.T. Quaife Engineering acknowledge that we have received your warrant registration card, which makes your differential eligible for the lifetime warranty, subject to the terms and conditions (a copy of these can be obtained from Quaife).

Please keep the enclosed photocopy of your warranty registration form, as you will need to produce this in the event of you claiming against the warranty.

We trust you will find satisfaction with your new Quaife ATB differential, and hope to be able to provide you with more Quaife products in the future.

Please do not hesitate to contact us if you have any questions.

Kind regards,

R.T. Quaife Engineering

Qualife ATB Differential – Warranty and Limitation of Liability

Warranty

R.T. QUAIFE ENGINEERING LTD ("Qualife") warrants each new Qualife Automatic Torque Biasing (ATB) differential both purchased and used anywhere in the World outside the United States of America (including its territories and dependencies), Canada or Mexico, against defects in manufacture, material and workmanship, when used in the vehicle application for which it was originally designed and specified, under any and all operating conditions, including racing, for as long as the original purchaser owns the differential.

Qualife will replace or repair, free of charge, at its sole discretion, for each qualifying original purchaser, any defective ATB differential both purchased and used anywhere in the World outside the United States of America (including its territories and dependencies), Canada or Mexico, which is returned to Qualife and which is not excluded from the warranty benefits of this warranty.

Important: Exclusion from Warranty Coverage: This warranty does not extend to any ATB differential, or part thereof, which has been either purchased in or imported into, and or used in any one or more of The United States of America (including its territories and dependencies), Canada or Mexico.

To qualify for this warranty the original purchaser must complete the accompanying "warranty registration form". ALL BOXES ARE TO BE COMPLETED OR IT WILL NOT BE VALIDATED. Please send to Qualife by recorded delivery post. The form **MUST** be received by Qualife within 30 days immediately after the purchase date. An acknowledgment copy of the form will be returned by ordinary post to the purchaser.

Important: The Warranty will be voided or inapplicable to any ATB differential:

- (1) which is not bought new and un-used directly either from Qualife or a distributor or dealer authorised by Qualife to distribute the ATB differential in the territory of purchase; or
- (2) which is degraded, damaged or deteriorates due to fair wear and tear within parameters of high performance use; or
- (3) which is damaged or broken due to careless or inappropriate installation or removal; or
- (4) which is installed or used in any vehicle or manner for which it is not specified by Qualife; or
- (5) which is modified altered reconfigured or disassembled in any manner by any person other than Qualife after it has been manufactured by Qualife.
- (6) which has had its Qualife-stamped part number tampered with or removed.

Warranty Claims Procedure:

If making a claim for replacement or repair, you the original purchaser must send the ATB differential you purchased, together with a copy of the warranty registration form, and original proof of purchase in your name, to Qualife at:

R.T. Qualife Engineering Ltd, Vestry Road, Offord, Sevenoaks, Kent TN14 5EL, England
by traceable delivery (Recorded Delivery/Courier). Qualife will contact you when the ATB differential has been received.

Qualife need not honour the warranty if all the requisite evidence of original purchase is not supplied by you.

If you have a valid warranty claim Qualife will bear the cost of sending back to you the replacement or repaired ATB differential, solely to the address at which the warranty is registered.

If you are not the original purchaser of the ATB differential, you should contact Qualife, at +44 (0)1732 741144, for information concerning after sales repairs.

Limitation of Liability

Save in the event of death or personal injury caused to any person a national or resident of a member state of the European Union by any negligent act or omission of Qualife, Qualife excludes to the fullest extent permitted by law any liability to the purchaser of an ATB Differential or any person claiming through that purchaser and Qualife accepts no obligation to bear any labour costs or other costs of return, removal and/or installation and will not be liable for any special, incidental, or consequential damages, including loss of use of any vehicle. Each Purchaser acknowledges that motor racing is a dangerous sport and that he or she is responsible for taking and will take all necessary safety measures to minimise the risk of injury loss or damage arising from the use to which an ATB Differential is subjected

PLEASE KEEP THIS FOR YOUR RECORDS.

The Warranty is in addition to, and the limitations and exclusions in this Warranty do not limit, the minimum statutory rights of consumer purchasers in the European Union, where those may exceed the limitations in any particular instance. This warranty and limitation of liability is governed by English Law.

The terms of this warranty extend to all ATB Differentials sold with this warranty form. Qualife reserves the right to vary or alter the terms.

Qualife® Engineering Automatic Torque Biasing helical gear limited slip differential

Customer information

Congratulations on the purchase of your Qualife® product, which is manufactured in the United Kingdom to ISO 9001 quality standards and is backed by a lifetime warranty.

IMPORTANT:- Please read through the following information prior to installation:-

- Fitting should be carried out by an experienced, qualified mechanic
- Dummy fit drive or half shafts to ensure compatibility prior to installation
- Observe all original factory settings for backlash, pre-loads and bolt torque levels
- Crown wheel securing bolts should be treated with Loctite
- New differential bearings (not included) are strongly recommended
- On rear wheel drive applications verify that the half shafts don't interfere with the diff centre pack – ensure that the half shafts are fully 'home' in the diff flange

LUBRICATION, SERVICE AND USE:-

- Qualife® recommends the use of the same, standard grade of transmission oil as specified in your vehicle's service manual, or Silkolene Pro SRG 75 (available through Qualife®)
- In normal use, the Qualife® ATB helical gear limited slip differential requires no maintenance whatsoever, other than transmission fluid changes as per your vehicle's original recommended service schedule
